

Dear Tony,

Thanks again Tony for an awesome show yesterday. All the kids loved it. My two were talking about it for the rest of the night and they got out their magic set were trying out tricks on us. It was interesting watching the 3 nine year olds because they understood a few more jokes than the little ones did. Brandon just thinks you are the greatest - he was still laughing about your jokes at bedtime.

I will definitely spread the word about your shows and keep you in mind for other events at the school and maybe for year end parties for sports teams etc.

Thanks for making Callum's day a special one.

Heather
